

SAKARATEES MARIKANNU

Scheduling Analyst | Broadcast Operations | Data & Reporting Analyst

Villianur, Puducherry - 605110 | +91 8870613643 | Sakaratees02@gmail.com | linkedin.com/in/sakaratees-marikannu

PROFESSIONAL SUMMARY

Scheduling Analyst with over 1 year of experience managing broadcast schedules for 125+ North American television channels at 99.70% data accuracy using the Cosmo scheduling database. Skilled in identifying and resolving scheduling discrepancies, coordinating with cross-functional and station teams, and maintaining data integrity across broadcast platforms. Proficient in MS Excel (Advanced), Power BI, and data visualization tools, with a strong track record of improving turnaround time through process refinement and quality-assurance workflows. Known for accuracy, attention to detail, and reliable reporting in fast-paced, deadline-driven broadcast operations. Seeking to bring strong analytical and coordination skills to a Scheduling, Data/Business Analysis, or Operations role.

CORE SKILLS

LANGUAGES

Tamil (Native) | English (Proficient)

PROJECTS

KID OS — Product Concept for Child Wellbeing

- Proposed KID OS during MBA final year, targeting the trend of Gen Z spending 4–7 hours daily on screens; designed to encourage healthier device use and balanced digital habits.

Public Relations Management — AIC-PECF

- Built a 30-day content schedule for the AIC-PECF LinkedIn page by analysing past page performance, increasing reach by 7% among students and 2% among entrepreneurs.

PROFESSIONAL EXPERIENCE

Scheduling Analyst — Straive

Apr 2025 – Present

Broadcast Operations — North American Television Networks

- Manage end-to-end broadcast schedules for 125+ North American television channels using the Cosmo scheduling database, ensuring accurate and timely publication of TV guide information.
- Maintain 99.70% data accuracy in programming schedules by validating listings against station-provided source data across all assigned channels.
- Identify and resolve schedule discrepancies proactively, cross-checking station-provided data against internal systems before publication deadlines.
- Coordinate with station contacts and internal cross-functional teams to reconcile schedule inconsistencies and maintain data integrity across platforms.
- Generate and maintain daily and weekly reports covering schedule status, discrepancy tracking, and operational performance metrics.
- Apply advanced MS Excel functions (lookups, conditional formatting, pivot tables) to streamline data validation and quality-assurance workflows across large datasets.
- Contribute to process improvement initiatives that reduced turnaround time for schedule validation and reporting cycles.
- Ensure TV guide data integrity across multiple broadcast platforms, supporting an uninterrupted viewing experience for North American audiences.

HR Recruiter — Navayuga Consultancy Services

Sep 2024 – Mar 2025

Recruitment & Talent Acquisition

- Sourced and screened candidates through job portals, social media platforms, and professional networking channels.
- Conducted initial screening interviews to assess candidates' qualifications, experience, and cultural fit for client requirements.
- Coordinated and scheduled interviews between candidates and clients, managing end-to-end interview planning.
- Facilitated salary negotiations between candidates and clients and supported new hires through the onboarding process.
- Built and maintained a comprehensive talent database to address both immediate and future recruitment needs.
- Served as the primary point of contact between clients and candidates throughout the hiring lifecycle, ensuring clear and timely communication.
- Tracked recruitment metrics, including time-to-hire and placement success rate, to identify opportunities and improve hiring efficiency.
